INTERNSHIP REPORT

Topic - NGO Management

Submitted to the Head of Department, _____ (College Name), in partial fulfilment of the requirements for the Degree of _____, Magadh University

Name of Student : _____

Programme : _____

University Registration No. : _____

College Roll No. : _____

Internship Registration No. : _____

Name of the IPO / Agency : RKNEXORA PRIVATE LIMITED

Internship Period : _____ to _____

Semester : _____

Year / Session : _____

_____ _____

Signature of Student **Seal & Signature of IPO**

ACKNOWLEDGEMENT

I express my sincere gratitude to RK NEXORA, RKNEXORA PRIVATE LIMITED, _____ (College Name), my faculty mentors and the internship supervisor, _____, for their guidance and support. The structured activities, learning resources and regular feedback helped me complete this internship in NGO Management successfully.

I am thankful to the Head of the Department and the college mentor for their encouragement and for guiding me in preparing this report. I am also grateful to the management of RKNEXORA PRIVATE LIMITED for providing a professional learning environment and the opportunity to learn and apply my knowledge in a practical setting. The concept sessions, hands-on tasks with sample forms and formats, and the supervisor's patient and detailed feedback helped me understand how an NGO plans, raises funds and reports behind the scenes.

Finally, I thank my family and peers for their constant encouragement throughout the programme.

PREFACE

Internships are an important part of the undergraduate programme, as they allow students to see how classroom learning is applied in real organisations. The Four-Year Undergraduate Programme (FYUGP), introduced in line with the National Education Policy 2020, gives special importance to experiential learning, skill development and employability. This report has been prepared as part of the internship requirement of Magadh University and the Higher Education guidelines applicable in Bihar.

The report describes the internship undertaken in NGO Management at RKNEXORA PRIVATE LIMITED, the plan followed, the work carried out, and the learning gained. Non-governmental organisations (NGOs) work in education, health, livelihoods, women's empowerment, environment and many other areas where communities need support, often alongside government programmes. A well-run NGO needs more than good intentions: it needs legal registration, clear planning, funds, trained volunteers, honest records and regular reporting. This internship offered a first-hand introduction to how that work is organised.

The report has been arranged in the order suggested by the University, beginning with the cover page and acknowledgement and ending with the conclusion and attendance sheet. It is hoped that the report gives a clear and honest account of the internship experience. All examples in it use dummy data and fictitious names; no real beneficiary information was handled.

EXECUTIVE SUMMARY

This report documents the internship completed in NGO Management at RKNEXORA PRIVATE LIMITED (RK NEXORA - 'Campus to Career'). The programme required a minimum of 120 hours, completed over about four to five weeks (28 working days) with daily sessions of four to five hours, and was supported by an attendance log, supervisor guidance and review.

Background. An NGO is a non-profit, voluntary organisation that works for social development and public welfare. To create lasting change, it must plan projects carefully, raise and use funds honestly, involve the community and volunteers, measure results and report to donors. NGO management is the discipline that brings these tasks together so that limited resources create the greatest benefit. For a student from any discipline, the internship shows how planning, communication, finance, data and ethics work in the social sector.

Objectives. The internship aimed to (i) build a structured understanding of NGO structure, registration and governance, (ii) learn project planning, fundraising methods and grant proposal writing, (iii) learn community outreach and volunteer management, (iv) learn beneficiary surveys and monitoring and evaluation, (v) understand donor reporting and financial accountability, and (vi) develop communication, documentation and professional discipline.

Work carried out. The student first studied NGO structure and registration, then worked through project planning, fundraising methods, grant proposal writing, community outreach, volunteer management, beneficiary surveys, monitoring and evaluation, donor reporting and financial accountability. Each topic had a concept session followed by a hands-on task using sample forms, formats and dummy data. The later part of the programme was devoted to a case study, a mock practical exercise, supervisor review and preparation of this report.

Project. The work was tied together in a project titled *NGO Project Planning & Community Outreach*, in which a grant proposal and a survey-based project plan were prepared with monitoring and donor reporting formats.

Method. A blended method was followed - learn, practise, document and review - supported by a daily attendance log with day-wise remarks and regular feedback from the supervisor.

Learning gained. The student gained a clear understanding of how NGOs are formed and governed, practical familiarity with project plans, budgets, proposals, survey forms, indicator tables and report formats, awareness of fundraising, FCRA and CSR basics, and improved communication, empathy and professional discipline.

Key observations. A project works best when it starts from the community's real need; honest records and timely reports build donor trust; and respect for beneficiaries' dignity and privacy must guide every activity.

Conclusion. The internship met its objectives and contributed to the student's academic understanding, employability and confidence. The report follows the University's suggestive format: cover page, acknowledgement, certificate, contents, preface, executive summary, about the agency, plan and execution, learning outcome, conclusion and attendance sheet.

ABOUT THE AGENCY

RK NEXORA, a unit of RKNEXORA PRIVATE LIMITED, provides structured internship and skill-development programmes under the theme 'Campus to Career'. The organization focuses on academic-industry alignment, practical exposure, assessment, documentation and employability-oriented learning.

Particulars	Details
Name of Agency	RKNEXORA PRIVATE LIMITED
Programme / Unit	RK NEXORA - Campus to Career
Registered Office	C/O Mukesh Kumar, Khiri, PS Atri, Jethiyan, Atri, Gaya - 805236, Bihar, India
CIN	U85499BR2026PTC086757
Email	rknexorapvtltd@gmail.com
Website	www.rknexora.org
Internship Topic	NGO Management

1. Vision

To support students in developing practical, professional and industry-relevant capabilities.

2. Mission

To deliver structured learning experiences that connect academic knowledge with workplace expectations.

3. Activities of the Agency

1. Structured internship programmes aligned with university and higher-education requirements.
2. Skill-development learning modules, practical activities and assignments.
3. Attendance tracking, supervision, assessment and documentation.
4. Employability-oriented guidance connecting campus learning to career readiness.

4. Programme Structure

The internship programme is organised around a fixed number of learning hours, completed over a defined period. Each intern is registered on the internship portal with a unique registration number, is assigned a supervisor, follows a day-wise plan and maintains an attendance log. Learning is organised into three phases: **Orientation** (Days 1-2), **Learning and Practice** (Days 3-22, ten sub-topics of two days each: one concept day and one hands-on day) and **Project and Review** (Days 23-28), followed by a concluding review.

5. Role of the Supervisor

The internship supervisor assigned by the agency guided the student through the programme, explained concepts, assigned practice tasks, reviewed the daily log and gave feedback. The supervisor also verified attendance and reviewed the student's work at the end of the programme.

PLAN AND EXECUTION

1. Objectives

The internship was planned around the following objectives, each linked to a part of the programme:

1. Understand NGO Management - types of NGOs, registration, governance and the role of the sector (Week 1).
2. Learn project planning - objectives, activities, timeline, resources and budget (Week 1).
3. Learn fundraising methods and grant proposal writing - donations, crowdfunding, CSR funding and proposal structure (Week 2).
4. Learn community outreach and volunteer management - awareness drives, community meetings, recruitment, roles and training (Weeks 2-3).
5. Learn beneficiary survey and monitoring and evaluation - survey forms, data collection, indicators and progress tracking (Week 3).
6. Understand donor reporting and financial accountability - progress and financial reports, utilisation certificates, audit and transparency (Week 4).
7. Develop professional discipline - communication, empathy, confidentiality, documentation and report writing (throughout).

2. Methodology

The programme followed a blended method made up of four connected steps, repeated for each topic:

Learn. Each topic began with a concept session in which the supervisor explained the purpose of the function, its main documents and how it connects with other NGO activities. Notes were prepared in the student's own words.

Practise. The concepts were then applied in guided hands-on tasks - drafting a project plan and work plan, preparing a sample budget, writing proposal sections, designing awareness material, preparing a volunteer register, drafting survey forms and tallying dummy responses, building an indicator table and preparing report formats. Only sample or dummy data and fictitious names were used, so that no real beneficiary or donor information was handled.

Document. Every day's work was recorded in the internship attendance log with a short remark, and formats and drafts were saved so that the work could be reviewed.

Review. The supervisor reviewed the work, pointed out errors and suggested improvements. Review days, a case study and a mock practical exercise helped to consolidate the learning.

3. Understanding NGO Management - Concepts Studied

3.1 What is an NGO and what does NGO management cover. A non-governmental organisation is a voluntary, non-profit organisation, independent of government, that works for social causes such as education, health, livelihoods, women and child welfare, environment and disaster relief. Its surplus, if any, is used for its objectives and not shared among members. NGO management covers governance, legal compliance, planning, resource mobilisation, programme delivery, people management, monitoring, reporting and financial control. Many NGOs work as partners of government schemes, corporate CSR programmes and international donors.

3.2 Structure and registration. In India an NGO is usually formed in one of three legal forms:

Form	Governing law	Who runs it	Key points
Trust	Indian Trusts Act, 1882 (private trusts) and State laws on public charitable trusts	Trustees (at least two)	Created by a trust deed; suitable for a small group with a clear purpose
Society	Societies Registration Act, 1860 (and State laws)	Governing body elected by members (at least seven persons to form)	Memorandum of association and rules; members, general body and annual elections
Section 8 Company	Companies Act, 2013	Board of directors	Licence from the Central Government; profits applied only to objectives; more compliance

Registration is done with the Registrar of Societies, Registrar / Sub-Registrar for trusts, or the Registrar of Companies, as applicable. Documents normally include the trust deed or memorandum and rules, ID and address proof of founders, a photograph, proof of office address and a no-objection letter from the owner of the premises. After registration, NGOs usually obtain a PAN and bank account, and may take: registration for income-tax exemption (known as 12A / 12AB) and for donor tax benefit (80G) - the section numbers may change under the new Income-tax Act, 2025, so the current position is always checked; a Unique ID on the NITI Aayog NGO-DARPAN portal, which is needed to apply for many government grants; a CSR-1 registration with the Ministry of Corporate Affairs to receive CSR funds; and FCRA registration to receive foreign contribution.

Governance. Good governance means a clear structure of president / chairperson, secretary and treasurer, regular meetings with written minutes, an annual general body meeting, written policies, avoidance of conflict of interest and transparent decisions. Records such as the register of members, minutes books and audited accounts are kept and filed as required by the law that applies.

3.3 Project planning. A project is a set of planned activities, with a clear start and end, carried out to solve a specific problem. Planning begins with a needs assessment and problem tree (listing causes and effects), turns the problem into objectives, and then sets out activities, timeline, resources and budget. Objectives should be SMART: Specific, Measurable, Achievable, Relevant and Time-bound. A logical framework (logframe) summarises the project in four levels - goal, outcomes, outputs and activities - with indicators, means of verification and assumptions for each. Other planning tools are the stakeholder analysis, work plan (Gantt chart) and risk table. The project cycle is: identify the need, design, secure funds, implement, monitor, evaluate and learn.

3.4 Fundraising methods. NGOs raise resources from many sources: individual donations (online, cash and regular giving), crowdfunding on public platforms, corporate CSR funds, government grants, foundations and institutional donors, membership fees, fundraising events, in-kind gifts and, for some NGOs, income from products or services. Under Section 135 of the Companies Act, 2013, companies above a prescribed size must spend at least 2% of their average net profit of the last three years on CSR activities listed in Schedule VII, and may do so through registered implementing agencies. Donor engagement follows a cycle: identify, approach, receive, thank, report and retain. Donations must be acknowledged with a proper receipt, and ethics require honest appeals, respect for donor wishes and no pressure.

3.5 Grant proposal writing. A grant proposal is a written request for funds. A standard proposal contains: cover letter, executive summary, background of the organisation, statement of need supported by data, objectives, activities and methodology, target beneficiaries, work plan and timeline, monitoring and evaluation plan, budget with justification, sustainability, risks and annexures such as registration certificates, 12A / 80G

and FCRA documents and audited statements. Good proposals follow the donor's guidelines exactly, match the donor's priorities, use clear numbers, keep the budget realistic and show the organisation's capacity.

3.6 Community outreach. Outreach connects the NGO with the people it serves. Methods include awareness drives, street plays (nukkad natak), rallies, wall paintings, posters, door-to-door visits and community meetings with village groups such as Self-Help Groups, mahila mandals and panchayat members, in cooperation with local workers such as Anganwadi and ASHA workers. Participatory methods, such as focus group discussions and community mapping, let people share their own needs. Communication should be in the local language and respectful, honest about what the NGO can and cannot do, and based on the community's consent.

3.7 Volunteer management. Volunteers extend an NGO's reach. The volunteer cycle is: plan roles, recruit, screen, orient and train, assign tasks, supervise, recognise contributions, keep records of attendance and hours, and take feedback on exit. Each volunteer should know the NGO's purpose, code of conduct, confidentiality rules and child safeguarding policy. Recognition through certificates, thanks and learning opportunities keeps volunteers motivated.

3.8 Beneficiary survey. A survey collects facts from the target group. Steps are: define the purpose, design a short questionnaire with clear closed and a few open questions, choose the sample (random, systematic or stratified), test the form on a few people, train data collectors, take informed consent, collect data, check forms, enter data in MS Excel or a mobile tool (for example Google Forms or KoBoToolbox) and analyse and report. A baseline survey at the start gives a starting point, and a later survey shows change. Beneficiary records must protect privacy, and data must be stored safely under the Digital Personal Data Protection Act, 2023.

3.9 Monitoring and evaluation (M&E). Monitoring is the continuous tracking of activities and results during the project; evaluation is a periodic, deeper judgement of whether the project worked. The results chain is: inputs, activities, outputs (direct products, for example sessions held), outcomes (changes in knowledge or behaviour) and impact (long-term change). An indicator is a measurable sign of progress and has a baseline, target and means of verification (register, attendance sheet, survey, photographs). Evaluations commonly ask about relevance, effectiveness, efficiency, impact and sustainability. Findings are used to correct the course and to learn for the next project.

3.10 Donor reporting. Donors expect regular reports, usually quarterly, half-yearly or annual. A narrative report states activities done against plan, outputs against targets, outcomes, challenges, lessons learnt, case stories and photographs. A financial report shows budget against actual expenditure, variance and fund balance, with supporting vouchers. A Utilisation Certificate (UC), signed by a chartered accountant where required, confirms that funds were used for the approved purpose. Reports must be accurate, on time and honest about problems.

3.11 Financial accountability. NGOs hold public trust and must keep proper books: cash book, bank book, ledger, vouchers and bills, and prepare an income and expenditure account and balance sheet that are audited each year by a chartered accountant. Restricted funds given for a specific project are tracked separately and spent only on that project, often through a separate bank account. Payments are made by cheque or bank transfer, and large cash payments are avoided. Foreign contributions under the Foreign Contribution (Regulation) Act, 2010 (FCRA) need FCRA registration or prior permission, receipt only in the designated bank account, a separate utilisation account, limits on administrative expenses, no sub-granting to others and an annual return (Form FC-4) filed by 31 December for the previous financial year. Transparency means sharing the annual report and audited accounts with members, donors and the public.

3.12 Key performance indicators (KPIs). NGOs track simple numbers to judge performance:

Indicator	Meaning / Formula	Why it matters
Cost per Beneficiary	Total project cost / Number of beneficiaries	Shows value for money
Administrative Cost Ratio	Administrative expenses / Total expenses x 100	Shows how much goes to overheads

Indicator	Meaning / Formula	Why it matters
Fund Utilisation Rate	Funds spent / Funds received x 100	Shows how well funds are used on time
Target Achievement	Achieved / Target x 100	Shows progress against plan
Donor Retention Rate	Donors who gave again / Donors in previous year x 100	Shows donor trust
Survey Response Rate	Responses received / Sample size x 100	Shows quality of data collection

3.13 Ethics and limitations. NGO work depends on trust. Key duties are respect for the dignity and consent of beneficiaries, protection of their privacy and photographs, safeguarding of children and vulnerable people, honest reporting, avoidance of conflicts of interest, and the principle of doing no harm. Laws, forms, tax rules and due dates change, so every point must be checked against current official sources, and complex matters should be reviewed by a professional. An intern practises on dummy data and does not collect real beneficiary information.

4. Week-wise Plan and Execution

Week	Days	Activities
Week 1	Days 1-6	Orientation and foundations: company induction, introduction to NGO management, NGO structure and registration, and project planning.
Week 2	Days 7-12	Resources and community: fundraising methods, grant proposal writing and community outreach, each with a concept session and a hands-on task.
Week 3	Days 13-18	People and evidence: volunteer management, beneficiary survey, and monitoring and evaluation.
Week 4	Days 19-24	Accountability and application: donor reporting, financial accountability, a case study exercise and a mock practical exercise.
Week 5	Days 25-28	Project closure: supervisor review and feedback, internship report drafting, presentation preparation and final review.

5. Week-wise Narrative

Week 1: The first week was devoted to orientation and foundations. After company induction, the student was introduced to NGO management and studied types of NGOs - trust, society and Section 8 company - registration and governance. The week ended with a study of project planning, including objectives, activities, timeline, resources and budget.

Week 2: In the second week the study moved to fundraising methods - donations, crowdfunding, CSR funding and donor engagement - followed by grant proposal writing, covering structure, objectives, budget and justification, and community outreach, covering awareness drives, community meetings and beneficiary contact.

Week 3: The third week focused on volunteer recruitment, roles, training and records; beneficiary survey forms, field data collection and records; and monitoring and evaluation, including indicators, progress tracking, outputs and outcomes.

Week 4: In the fourth week the student studied donor reporting - progress and financial reports, fund utilisation and impact stories - and financial accountability, including fund records, utilisation certificates, audit and transparency. A case study exercise and a mock practical exercise were completed in this week.

Week 5: The last week was devoted to project closure: supervisor review and feedback, drafting of the internship report, preparation of a presentation and final review before submission.

6. Topic-wise Learning in Detail

6.1 NGO Structure & Registration

Concept: Types of NGOs, trust, society and Section 8 registration, governance, and registrations such as 12A / 80G, NGO-DARPAN and FCRA.

Practice carried out: Preparing a comparison chart of trust, society and Section 8 company; listing registration documents; drawing a governance structure chart.

6.2 Project Planning

Concept: Project objectives, activities, timeline, resources and budget; problem tree, SMART objectives and logical framework.

Practice carried out: Drawing a problem tree for a sample community issue; preparing a logical framework, work plan and sample budget.

6.3 Fundraising Methods and Grant Proposal Writing

Concept: Donations, crowdfunding, CSR funding and donor engagement; proposal structure, objectives, budget and justification.

Practice carried out: Preparing a donor mapping list; drafting the need statement, objectives and budget justification of a sample proposal.

6.4 Community Outreach and Volunteer Management

Concept: Awareness drives, community meetings and beneficiary contact; volunteer recruitment, roles, training and records.

Practice carried out: Designing a sample awareness poster and meeting plan; preparing a volunteer role description, register and orientation outline.

6.5 Beneficiary Survey and Monitoring & Evaluation

Concept: Survey forms, field data collection and beneficiary records; indicators, progress tracking, outputs and outcomes.

Practice carried out: Drafting a short household survey form; tallying dummy responses in MS Excel; preparing an indicator tracking table.

6.6 Donor Reporting and Financial Accountability

Concept: Progress and financial reports, fund utilisation and impact stories; fund records, utilisation certificates, audit and transparency.

Practice carried out: Preparing a sample quarterly report format; making a budget-versus-actual statement and a sample utilisation statement.

7. Key Laws and Good Practice - Points Studied

Important laws and rules (introductory awareness).

Law / Rule	Relevance to NGOs
Societies Registration Act, 1860	Registration and working of societies
Indian Trusts Act, 1882 and State public trust laws	Creation and working of trusts
Companies Act, 2013 - Section 8 and Section 135	Non-profit companies; CSR spending and implementing agencies

Law / Rule	Relevance to NGOs
Income-tax law (12A / 80G registrations)	Tax exemption for the NGO and tax benefit for donors; check current provisions
Foreign Contribution (Regulation) Act, 2010	Registration, use, accounting and reporting of foreign funds
NGO-DARPAN (NITI Aayog)	Unique ID and public profile needed for government grants
Right to Information Act, 2005	Applies to NGOs substantially financed by the Government
Digital Personal Data Protection Act, 2023	Protection of personal data of beneficiaries, donors and volunteers

Good practice. Keep a voucher and bill for every payment, record every meeting in minutes, take written consent before collecting data or photographs, report on time and share results openly.

Ethics. Respect, honesty, accountability and non-discrimination are basic duties. Beneficiaries are partners, not objects of charity, and promises must never go beyond what the NGO can deliver.

8. Process Flows Studied

Process mapping was used to understand how work moves through an NGO and who is responsible at each step.

Process	Steps
NGO Registration	Idea and objectives > Founders and name > Deed or memorandum drafted > Application to Registrar > Registration certificate > PAN and bank account > 12A / 80G / DARPAN / FCRA as needed
Project Cycle	Need assessment > Project design and budget > Proposal and funding > Implementation > Monitoring > Evaluation > Learning
Grant Proposal	Donor guidelines read > Outline > Draft sections and budget > Internal review > Annexures attached > Submission > Follow-up
Volunteer Cycle	Role defined > Recruitment > Screening > Orientation > Assignment > Supervision > Recognition > Exit feedback
Survey	Purpose > Questionnaire > Sample > Pilot test > Data collection > Data entry > Analysis > Report
Donor Reporting	Collect activity data and vouchers > Prepare narrative and financial report > Review > UC and audit support > Submit > Donor feedback

9. Worked Examples with Sample (Dummy) Data

Example A: Logical framework (dummy project). A sample project, *Healthy Adolescents,* for 500 girls aged 11 to 18 in two villages:

Level	Statement	Indicator	Means of verification
Goal	Improved health and school attendance of adolescent girls	Girls attending school regularly	School registers, survey
Outcome	Girls and families know about nutrition and hygiene	% of girls scoring 70% or more in a short quiz	Pre and post quiz sheets
Output	Awareness sessions held and volunteers trained	Sessions held; volunteers trained	Attendance sheets, photographs
Activities	Community meetings, school sessions, wall paintings, survey	Number of activities done	Activity reports

Example B: Project budget (dummy figures). The one-year budget for the sample project, with cost per beneficiary and administrative ratio:

Budget head	Basis	Amount (Rs.)
Awareness camps and sessions	40 sessions	60,000
Training and materials	Volunteer training, posters, kits	40,000
Survey and data work	Baseline and endline	25,000
Project staff and coordination	Part-time coordinator	40,000
Monitoring and reporting	Field visits, reports	15,000
Administration	Office, communication	20,000
Total budget		2,00,000
Cost per beneficiary	2,00,000 / 500 girls	400
Administrative cost ratio	20,000 / 2,00,000 x 100	10%

Example C: Indicator tracking (dummy figures).

Indicator	Baseline	Target	Achieved	Achievement %
Girls attending awareness sessions	0	400	360	90%
Households surveyed	0	150	150	100%
Volunteers trained	0	20	18	90%
Community meetings held	0	12	12	100%

Example D: Survey tally (dummy figures). In a baseline survey of 150 households, 105 reported that their daughters aged 11 to 18 attend school regularly and 45 did not. Regular attendance = 105 / 150 x 100 = 70%. The 45 households (30%) were asked for reasons, and the main reasons noted were household work, distance to school and lack of sanitary facilities, which guided the activities of the project.

Example E: Fund utilisation (dummy figures). The NGO received Rs. 2,00,000 and spent Rs. 1,85,000 on approved heads by the end of the year. Fund utilisation rate = 1,85,000 / 2,00,000 x 100 = 92.5%. The unspent balance of Rs. 15,000 is shown in the utilisation statement and adjusted or refunded as per the grant agreement.

Example F: Sample volunteer register (dummy entries).

No.	Volunteer (dummy)	Role	Hours this month	Training done
1	Volunteer A	Session facilitator	18	Yes
2	Volunteer B	Survey enumerator	24	Yes
3	Volunteer C	Community mobiliser	15	Yes
4	Volunteer D	Documentation support	10	Pending

10. Project: NGO Project Planning & Community Outreach

Scope. The internship work was organised around a project in which a grant proposal and a survey-based project plan were prepared with monitoring and donor reporting formats, using sample forms and dummy data.

Steps followed. (i) Studied NGO structure, registration and governance; (ii) drew a problem tree and prepared a logical framework, work plan and budget; (iii) drafted the main sections of a grant proposal; (iv) designed outreach material and a volunteer plan; (v) prepared a survey form, tallied dummy responses and built an indicator table; (vi) prepared donor report formats and reviewed the work with the supervisor.

Skills and tools. Project Planning, Grant Writing, Fundraising, Community Outreach, Monitoring & Evaluation, MS Office.

Outputs. Logical framework, work plan and budget, draft grant proposal, outreach plan, survey form and tally sheet, indicator table, donor report formats, and this internship report.

11. Case Study Exercise: Late Reports and Weak Records in a Village NGO

A case study exercise was completed on a typical NGO problem. The NGO and figures are illustrative and not taken from any real organisation.

Part	Details
Background	A small registered society runs an adult literacy programme in three villages. It received a grant of Rs. 3,00,000 in two instalments from a donor.
Problem observed	The first progress report was sent two months late, many bills and vouchers could not be found, volunteer attendance was not recorded, and photographs were taken without consent forms. The donor delayed the second instalment.
Analysis	There was no reporting calendar, no voucher filing system and no monthly review. Project money was used from the general bank account, which made tracking difficult. The delay in reports reduced the donor's trust and slowed the project.
Recommendations	(1) Prepare a reporting calendar with due dates and owners. (2) File vouchers and bills month-wise with a voucher number. (3) Open a separate bank account for the project. (4) Keep a volunteer and learner attendance register. (5) Take written consent for photographs and data. (6) Hold a short monthly review and send a quick update to the donor.
Expected result	On-time reports, clean accounts, restored donor trust and uninterrupted project work.
Lesson learned	Funds and trust are linked: honest records and timely reports are as important as the field work.

12. Mock Practical Exercise: From Community Need to Donor Report

In the mock practical exercise the student followed a sample (dummy) project from the first community meeting to the final donor report, using the formats and sheets practised earlier.

Step	Task	Document prepared / checked	Area
1	Community meeting	Meeting notes, problem tree and list of needs	Outreach
2	Project plan	Objectives, logical framework, work plan and budget	Planning
3	Proposal	Grant proposal outline with need, objectives, budget and annexure list	Fundraising
4	Volunteers	Role description, volunteer register and orientation outline	Volunteer management
5	Baseline survey	Survey form, consent note and tally sheet	Survey
6	Tracking	Indicator table updated with achievements	M&E
7	Donor report	Narrative report, budget-versus-actual and utilisation statement	Reporting
8	Review	Lessons learned list and records filed	Accountability

The exercise showed that every step depends on the one before it: a weak needs assessment leads to a weak plan, a weak plan to a weak budget and report, and poor records weaken donor trust.

13. Sample Checklists Prepared

Checklists were prepared as part of the hands-on tasks. They reduce errors and make routine work easier to review.

NGO Registration & Compliance Checklist	Grant Proposal Checklist
Name and objectives finalised	Donor guidelines and deadline noted
Trust deed / memorandum and rules drafted	Need statement supported by data
ID and address proof of founders collected	SMART objectives and activities listed
Office address proof and consent obtained	Work plan and timeline attached
Registration certificate, PAN and bank account	Budget with justification prepared
12A / 80G, NGO-DARPAN, FCRA / CSR-1 as needed	M&E plan and sustainability explained
Annual returns and audited accounts planned	Registration documents and audited accounts attached

Beneficiary Survey Checklist	Donor Report & Accountability Checklist
Purpose and sample size fixed	Reporting dates and owners noted
Questionnaire short, clear and tested	Activities and outputs compared with targets
Enumerators trained	Challenges and lessons written honestly
Informed consent taken	Case stories and photographs with consent
Forms checked daily for gaps	Budget versus actual and variance explained
Data entered in Excel and backed up	Vouchers filed and cross-checked
Personal data stored safely	Utilisation certificate and audit support ready

14. Tools and Resources

Learning materials, sample registration documents, project and proposal formats, survey forms and report formats, MS Excel for budgets, tally sheets and indicator tables, MS Word and PowerPoint for documentation and presentation, NGO-DARPAN, MCA and FCRA reference material, assignments and mentor feedback were used during the internship.

15. Programme at a Glance

Particulars	Details
Domain	NGO Management
Agency	RKNEXORA PRIVATE LIMITED
Minimum hours required	120
Learning days planned	28
Phases	Orientation (Days 1-2); Learning and Practice (Days 3-22); Project and Review (Days 23-28)
Record of attendance	Internship Attendance Log, signed by the supervisor (see Attendance Sheet)

LEARNING OUTCOME

a. Knowledge Acquired

1. Meaning and role of NGOs, their legal forms (trust, society, Section 8 company), registration steps and governance.
2. Project planning tools such as the problem tree, SMART objectives, logical framework, work plan and budget.
3. Fundraising sources, including CSR, crowdfunding and grants, and the structure of a grant proposal.
4. Community outreach methods and the basics of recruiting, training and managing volunteers.
5. How to plan a beneficiary survey, collect and tally data, and track indicators in monitoring and evaluation.
6. Donor reporting, utilisation certificates, books of accounts, audit and the basics of FCRA and transparency.
7. Ethics of working with communities: consent, privacy, dignity, safeguarding and honesty.

Glossary of Terms Learned

Term	Meaning
NGO	Non-governmental organisation - voluntary non-profit body working for social welfare
Section 8 Company	Non-profit company registered under the Companies Act, 2013
12A / 80G	Income-tax registrations for NGO exemption / donor tax benefit
FCRA	Foreign Contribution (Regulation) Act, 2010 - governs foreign funds
CSR	Corporate Social Responsibility spending by companies
NGO-DARPAN	NITI Aayog portal giving NGOs a Unique ID and profile
Stakeholder	Any person or group affected by or interested in a project
Problem tree	Diagram of causes and effects of a core problem
Logframe	Logical framework - table linking goal, outcomes, outputs, activities and indicators
SMART	Specific, Measurable, Achievable, Relevant, Time-bound
Beneficiary	Person or group who benefits from a project
Baseline / Endline	Survey at the start of a project / at its end
Indicator	Measurable sign of progress or change
Output / Outcome / Impact	Direct product / change in people / long-term change
M&E	Monitoring and Evaluation
Utilisation Certificate	Statement confirming that a grant was used for its approved purpose
Restricted fund	Money that may be spent only for a specific purpose
Safeguarding	Measures to protect children and vulnerable people from harm
Impact story	Short real-life account showing the change a project brought

b. Skills Learned

Technical Skills	Professional Skills
Project planning, logframe and work plan	Communication and community engagement
Budget preparation and cost calculation	Empathy and respect for beneficiaries
Grant proposal and report writing	Teamwork and leadership of volunteers
Survey form design and data tally in MS Excel	Confidentiality and ethical conduct
Indicator tracking and M&E formats	Time management and coordination
Donor reporting and fund utilisation statements	Documentation, report writing and presentation

These skills were developed through repeated practice and daily documentation. Preparing budgets improved accuracy, tallying survey data improved analytical thinking, drafting proposals improved clear writing, and writing remarks and reports improved communication.

c. Observed Attitude and Gained Values

1. Empathy and service: social work begins with listening to people and respecting them.
2. Honesty and transparency: funds, records and reports must be true and open to scrutiny.
3. Responsibility and accuracy: a wrong figure in a report or a missing voucher can harm trust.
4. Discipline and punctuality: regular reporting at fixed timings and daily attendance records.
5. Teamwork and humility: change happens through community, volunteers and partners working together.

d. Challenges Faced

Challenges Faced	How They Were Handled
Understanding terms such as logframe, FCRA, 12A / 80G and utilisation certificate.	Used a glossary, reference material and mentor guidance.
Choosing realistic activities and budget figures.	Used sample budgets and checked cost per beneficiary with the supervisor.
Writing a clear need statement with limited data.	Used dummy survey data and structured the section as problem, evidence and solution.
Designing simple survey questions.	Tested the form on a few classmates and revised unclear questions.
Maintaining consistent documentation.	Used daily log entries and reviewed feedback to improve documentation progressively.
Managing time between practice, documentation and report writing.	Divided work week by week and used review days for corrections.

e. Career Pathways

The knowledge gained supports further study and careers such as Programme Coordinator or Project Assistant, Field Officer or Community Mobiliser, Fundraising and Resource Mobilisation Executive, Monitoring and Evaluation Assistant, Volunteer Coordinator, CSR Executive, Grants and Compliance Officer, and Social Researcher. Opportunities exist in NGOs, CSR teams of companies, development organisations, government-supported missions such as the state's livelihood programmes and international agencies. Related higher-study options include MSW, Master's programmes in Social Work, Rural Development or Development Studies, and management programmes in social entrepreneurship or development management.

CONCLUSION

The internship in NGO Management was a valuable learning experience that integrated academic knowledge with practical activity. The programme achieved its objectives through structured learning, guided practice, assignments, supervisor review and documentation.

The student gained a clear understanding of how an NGO works - through structure and registration, project planning, fundraising, grant proposals, community outreach, volunteer management, surveys, monitoring and evaluation, donor reporting and financial accountability - and acquired practical familiarity with plans, budgets, proposals, forms, indicator tables and report formats. The experience has strengthened the student's employability and provides a foundation for further study and work in the social sector.

Reflection

Looking back, the most useful lesson of the internship was that good intentions become lasting change only when they are supported by planning, honest accounts and respect for the community. Moving from concept to practice to documentation made abstract ideas concrete, and supervisor feedback showed where understanding was weak. The habit of recording each day's work also made it easier to see progress over the weeks.

Objectives and Achievement

Objective	How it was achieved
Understand NGO structure and registration	Concept sessions, comparison chart and registration checklist
Learn planning, fundraising and proposals	Problem tree, logframe, budget and draft proposal sections
Learn outreach and volunteer management	Outreach plan, volunteer role description and register
Learn survey and M&E	Survey form, tally sheet and indicator table
Understand donor reporting and accountability	Report formats, budget-versus-actual and utilisation statement
Develop professional discipline	Daily attendance, supervisor review and report writing

Future Scope

The knowledge gained can support further study of social work and development management, and careers in NGOs, CSR departments, development agencies and community programmes. With growing CSR funding, government-NGO partnerships and demand for transparent, data-based social programmes, trained professionals are increasingly needed.

Suggestions for Improvement of the Programme

1. Include field visits and talks by NGO leaders and CSR managers, with appropriate permissions.
2. Continue regular mentor feedback and progress reviews.
3. Provide more project-based activities such as preparing a complete mock proposal and report.
4. Encourage students to maintain detailed daily documentation.
